

# United States Environmental Protection Agency Region 5

## 77 W. Jackson Chicago, Illinois 60604-3507

October 2004  
FUNDING SOURCES

| Grant Program   | Environmental Justice (EJ)   | Environmental Education (EE)  | Pollution Prevention Incentives for States (PPIS)   | P2 Demonstration Grants   |
|---|--|---|---|---|
| <b>Purpose</b>  | To provide financial assistance to eligible community groups, & federally recognized tribal governments that are working on or plan to carry out projects to address environmental justice issues.   | To provide financial support for projects which design, demonstrate or disseminate environmental education practices, methods or techniques.  | To build and support state pollution prevention (P2) capabilities and to test, at the state level, innovative pollution prevention approaches and methodologies.  | To Build Support and P2 capabilities and innovative P2 projects, especially those projects which have potential for Region-wide impacts.  |
| <b>Eligible Applicants</b>                              | Any affected community group, church, school, educational institution, non-profit organization, university, or tribal govt. Organizations must be incorporated.  | Local, tribal or state education agencies, colleges & universities, nonprofit organizations, state environmental agencies and non-commercial educational broadcasting agencies.   | State agencies & federally-recognized tribes. States are encouraged to form partnerships with other P2 providers.   | State, tribal, and local governments, universities, and non-governmental environmental organizations  |
| <b>Award Amount</b>                                     | Up to \$15,000 per non-Superfund grant; up to \$20,000 for Superfund grants.   | Most awards are for \$10,000 Occasionally up to \$50,000 EPA HQ accepts applications between \$50,001 - \$150,000   | Up to \$125,000 per grant   | Varies typically between \$20,000-\$70,000  |
| <b>Total Awarded in Fiscal Year</b>                     | \$500,000 nationally or \$50,000 Regionally for non-Superfund - \$1 million nationally or \$100,000 Regionally for Superfund related projects.   | \$188,900 Regionally in FY03  | \$575,000 Regionally in FY04  | Approximately \$145,000 Regionally FY04   |
| <b>Matching Share</b>                                   | NONE   | 25% matching share required   | 50%   | 5% matching share required.   |
| <b>Key Dates:<br/>- Application Due<br/>- Selection</b> | Due: December 18, 2002<br>Selection:   | Due: Nov. 15, 2004<br>Selection: Call contact below   | Due: April 16, 2004<br>Selection: May 2004  | Due: May 15, 2004<br>Selection: July 2004   |
| <b>Priorities</b>                                       | Applications will meet 2 of the following 3 goals:<br><br>1) Facilitate communication & info exchange and create partnerships among stakeholders to address disproportionate, high & adverse environmental exposure.<br><br>2) Build community capacity to identify local environmental justice problems & involve the community in the design and implementation of activities to address these concerns.<br><br>3) Enhance community understanding of and access to environmental and public health information systems (e.g. Toxic Release Inventory and Geographic Information Systems). | Applicants must demonstrate Projects must focus on one of the following:<br>- improving environmental education teaching skills;<br>- educating teachers, students or the public about human health<br>- building state, local or tribal government capacity to develop environmental ed programs<br>- promoting environmental careers among students<br>- educating the public thru a community based organization, thru print or other media<br>- using environmental education to advance education reform | - Funds must be used for programs that prevent the transfer of pollutants (especially persistent, bioaccumulative & toxic chemicals) across all environmental media.<br><br>- Funded activities might include: on-site technical help to businesses or training in P2 techniques.<br><br>- Environmental impact/waste reduction measures must be included.<br><br>*Criteria at <a href="http://www.epa.gov/p2/grants">www.epa.gov/p2/grants</a> | - Funds must be used for projects that prevent pollution at the source.<br><br>- Projects that enhance P2 program efforts across the Region.<br><br>- Funded projects might include: support the Great lakes Regional P2 Roundtable, Direct P2 technical Assistance, and coordinate P2 Partnerships.<br><br>- Focus on reducing persistent, bioaccumulative and toxic chemicals.<br><br>*see <a href="http://www.epa.gov/region5/p2/grants.html">www.epa.gov/region5/p2/grants.html</a> |

| Grant Program   | Clean Water State Revolving Fund  | Water Pollution Control-State and Interstate Program Support  | State Wetlands Protection Grants  | Nonpoint Source Water Pollution Control  |
|---|---|---|---|--|
| <b>Purpose</b>  | Low-interest-loan program established by the Clean Water Act to make money available for a wide range of water quality improvement projects. U.S. EPA provides funds to each State to establish on going loan programs. The State administers the SRF.  | Administration of programs for prevention reduction and control of pollution to ground and surface waters.  | Assist state and tribal wetlands protection efforts. Funds can be used to develop new wetlands protection programs or refine existing protection programs. In FY'97, expanded eligibility supported local efforts that better protect wetlands resources. CWA 104(b)(3)   | Established by the federal Clean Water Act §319, these funds are for the implementation of State non-point source pollution control programs. Each State "passes through" a portion of these funds to other entities for implementing specific NPS management practices.   |
| <b>Eligible Applicants</b>                              | EPA provides grants to States who in turn provide assistance to public entities (e.g., municipalities, special districts) for construction of treatment facilities. Public and private entities are eligible for implementation of non-point source control projects, and for estuary protection plans. | States, Interstate, Tribes, Water Pollution control Agencies, U.S. Territories.<br><br>Required expenditure of at least the amount spent in 1971 (the minimum level of effort). The type of assistance is a formula grant based on the extent of water pollution problems. For Tribes the formula allocates funds based on population, land and water resource area. Assistance period is one year. | Generally, state and tribal agencies, but this has been expanded for local projects to include local governments, conservation districts, non-profits and others.   | Application and project selection for local "pass through" funds is conducted by the State water quality agency. Eligible applicants include non-profits, local governments tribes, special districts, educational institutions, and government agencies.  |
| <b>Award Amount</b>                                     | Variable  | Variable  | Variable  | Variable   |
| <b>Total Awarded in Fiscal Year</b>                     | \$283,657,077 in FY04   | \$35,844,273 in FY04  | \$1,557,598 in FY04   | \$41,994,183 in FY04   |
| <b>Matching Share</b>                                   | 20% non-federal match   | 5% match for Tribes<br>Match for States: Based on Level of Effort Requirement.  | 25% matching share required.  | 40% non-federal match.   |

| Grant Program   | Beach Act Development Program   | Safe Drinking Water State Revolving Fund  | Water Quality Management & Planning   | Drinking Water Security Coordination   |
|---|---|---|---|--|
| <b>Purpose</b>  | Established by the Clean Water Act (CWA) Section 406(b), 40 CFR 31, these funds develop and implement coastal recreation water monitoring and public notification programs. The FY 01 and FY02 beach grant funds paid for beach program development. The FY03 and FY04 funds go toward implementation of the beach programs developed with the previous years' grant funds. | A new low interest-loan program established by the Safe Drinking Water State Act of 1996 to provide loans to ensure that drinking water remains safe and affordable. States will administer the program and may provide loan subsidies and forgiveness to disadvantaged communities. In addition, States may use a portion of these funds for prevention programs and projects that address source water protection, wellhead protection, and capacity development. | Established by the federal Clean Water Act §205(j), these funds will support water quality assessment and planning projects which will lead to implementable actions that promote healthy aquatic ecosystems. | Support counter-terrorism coordination activities by states and territories to protect public water supplies. SDWA Section 1442(a) |
| <b>Eligible Applicants</b>                            | Tribes that have coastal recreation waters, with WQS programs, and program authorization (TAS), States and Territories  | Community water systems and non-profit non-community water systems are eligible.  | State Water Quality Program Agencies with pass through to regional public comprehensive planning organizations and local government bodies.   | States, Territories, and local agencies.   |
| <b>Award Amount</b>                                   | Varies - Grant allocation among the eligible states and territories is based on allocation formula that considers beach season, coastal mileage and population  | Variable  | Variable  | Variable   |
| <b>Total Awarded in Fiscal Year</b>                   | \$1,389,570 in FY04   | \$148,819,300 in FY04   | \$ 3,317,685 in FY04  | \$902,000 in FY04  |
| <b>Matching Share</b>                                 | NONE  | 20% non-federal match   | NONE  | NONE   |
| <b>Key Dates:</b><br>- Application Due<br>- Selection | Due: Varies<br>Selection: All who apply and meet criteria   | Due: Open<br>Selection: Varies  | Varies  | Varies   |
| <b>Priorities</b>                                     | - Protect public health, consistent beach monitoring, and public notification.  | - States annually prepare intended use plans identifying eligible projects.<br><br>- States annually prepare set aside work plans   | - An important goal of this funding program is to support projects which foster local watershed management efforts that protect and enhance environmental conditions.   | - Support counter-terrorism coordination activities.   |

# FUNDING SOURCES

| Program   | State Public Water Supply Supervision (PWSS)  | Underground Water Source Protection (UIC)  | National Pollutant Discharge Elimination System (NPDES)  | Operator Training Assistance  |
|---|---|--|--|---|
| <b>Purpose</b>  | Activities that foster the development and maintenance of State Drinking water programs which implement the Safe Drinking Water Act.  | Assistance Period is 1 Year. Develop and implement a UIC program adequate to enforce the requirements of the SDWA.   | Clean Water Act (CWA) Section 104(b)(3), 40 CFR 31. Assist State in implementation of new requirements relating to NPDES programs, specifically developing and implementing strategies for combined sewer overflows, and stormwater discharge problems.  | Clean Water Act (CWA) Section 104(g)(1). The primary use of Section 104 (g)(1) funds is to provide on-site technical assistance for operators and municipal employees involved in the operation, maintenance and management of publicly-owned treatment works (POTWs). States may also propose using these funds to promote energy/water use efficiency and technical assistance on sewer system maintenance to control infiltration and inflow and sanitary overflows. |
| <b>Eligible Applicants</b>                            | States, Tribes (Indian Lands Circuit Rider Programs (3% of national allocation), U.S. Terr and Wash D.C. Funds are only provided to develop and implement a PWSS Program adequate for the enforcement of the SDWA. The grant formula is based on population, land area and inventory of community and non-community water supply systems. | States and Tribes with delegated authority for program implementation are eligible. The Federal Funds are limited to 75% of program costs. Tribes are eligible from up to 90% of costs. Formula grants are based on population, land area, and state injection control practices.                                    | Limited to State Water Pollution Control Agencies, Tribes, Interstate and public agencies.   | State and interstate Agencies, municipalities, educational institutions and individuals are eligible.   |
| <b>Award Amount</b>                                   | Variable  | Variable   | Variable   | Typically \$30,000-\$50,000   |
| <b>Total Awarded in Fiscal Year</b>                   | \$18,442,920 for FY04   | \$1,561,800 in FY04  | \$5,778,303 in FY04  | \$206,600 in FY04   |
| <b>Matching Share</b>                                 | 25% State Match Required  | 25% State Match Required   | Optional   | 25% State Match is preferred<br>5% match for Tribes   |
| <b>Key Dates:<br/>-Application Due<br/>-Selection</b> | Prior to October 1  | Prior to October 1   | Proposals: varies<br>Applications varies   | Due: Open -fund before end of FY<br>Selection: Available by January   |
| <b>Priorities</b>                                     | Funds are utilized by the States for such purposes as State Regulations review, program plan developments, data management, inventory of drinking water systems, public participation, technical assistance and enforcement   | Funds are utilized by the States for such purposes as State Regulation review, program plan developments, data management, inventory of injection facilities, identification of aquifers, public participation, technical assistance and review, permit approval and enforcement and surveillance and investigation. | Typical projects will include development of specialized model general permits for storm water development of State combined sewer overflow (CSO) control programs for targeted watershed; Development of approval programs to implement the sewage sludge regulations; Development of pretreatment measures to minimize pollutants from CSOs and advance the Agency's knowledge of wet weather pollution problems | -On-site assistance at smaller municipal wastewater treatment plants for the purpose of maintaining better compliance.<br>-On-site assistance for the performance of Operations Management Evaluation (OME) activities.<br>-Perform POTW diagnostic and energy/water use evaluations at small POTWs to determine cause of current or potential performance or compliance problems.  |

| Program   | Tribal Drinking Water Infrastructure Grants   | Brownfields Assessment Program   | Brownfield Cleanup Revolving Loan Funds  |
|---|---|--|--|
| <b>Purpose</b>  | To provide grants to American Indian tribes to facilitate compliance with the Safe Drinking Water Act requirements and address significant public health concerns.  | To provide local units of government, and other stakeholders in economic redevelopment, the capacity to work together in a timely manner to prevent, assess, safely clean up, and sustainably reuse Brownfields.   | To provide local units of government, states, and other eligible entities the ability to clean up and sustainably reuse Brownfields through the use of low- to no-interest loans to private developers or other eligible entities under their jurisdiction.  |
| <b>Eligible Applicants</b>                            | Federally recognized American Indian Tribes.  | States, cities, towns, counties and any other recognized political state subdivision - also redevelopment authorities, U.S. Territories, & Indian tribes are eligible to apply.  | Cities, towns, and other local units of government, states, tribes, redevelopment authorities, regional government councils, and any other entity sanctioned by a state to engage in land recycling and development.   |
| <b>Award Amount</b>                                   | Varies, based on expected construction project costs.   | Up to \$200,000 per site-specific application plus up to \$200,000 per community-wide application for a grand total of \$400,000 per eligible entry. One time waiver provisions of up to an additional \$150,000 per application are also possible. Funds may be used for the assessment of petroleum contamination as well. | \$1,000,000 per political subdivision  |
| <b>Total Awarded in Fiscal Year</b>                   | \$946,250<br>(in Region 5) for FY04   | \$130 million for National Program in FY03 (the total amount of Brownfield monies in any category of funding will be based on the percentage of applications received in each category. Any one eligible entity's single year award will be capped at \$2.7 million).  | \$130 million for National Program in FY03 (the total amount of Brownfield monies in any category of funding will be based on the percentage of applications received in each category. Any one eligible entity's single year award will be capped at \$2.7 million).  |
| <b>Matching Share</b>                                 | No match required.  | NONE   | 20%  |
| <b>Key Dates:<br/>-Application Due<br/>-Selection</b> | Funding plan developed each year based on IHS SDS priority list. Priorities for funding are Tribal public water systems which need improvements to address public health issues.  | Due: December 16, 2002<br>Selection: May/June 2003   | Due: December 16, 2002<br>Selection: May/June 2003   |
| <b>Priorities</b>                                     | <ul style="list-style-type: none"> <li>- Only improvements to existing systems can be funded.</li> <li>- Priorities for use of available funds are (1) to correct existing MCL issues and (2) to address other significant public health issues.</li> </ul> | Applications are competitive. Competitive applications will balance the ability to leverage additional funds and community need. Projects that provide for overall environmental protectiveness, and facilitate clean up and development efforts across all political levels will also be competitive.                       | Applicants must be able to demonstrate the ability to manage a revolving loan fund, engage in site cleanups, and demonstrate a need. Funds may be used for environmental cleanups, demolition, and asbestos and lead paint abatement where environmental need is demonstrated. Funds may not be used for site acquisition or other land purchases. A portion of the funds (up to 40%) may be granted as well as loaned to eligible entities. Monies may also be used for the cleanup and removal of underground storage tanks and related contamination. |

| Program   | Brownfield Direct Cleanup Grants   | Environmental Job Training and Development Pilots  | Superfund Technical Assistance Grants (TAGs)  |
|---|--|--|---|
| <b>Purpose</b>  | To provide local units of government, states, not-for-profit organizations, and other entities the ability to clean up and sustainably reuse Brownfields through the use of low- to no-interest loans to private developers or other eligible entities under their jurisdiction.   | The goals of the pilots are to facilitate cleanup of brownfields sites contaminated with hazardous substances and prepare the trainees for future employment in the environmental field. The projects must prepare trainees in activities that can be usefully applied to a cleanup employing an alternative or innovative technology.                                     | To enable communities affected by a site on, or proposed for, the Superfund National Priorities List (NPL) to obtain technical assistance in interpreting information regarding the site.   |
| <b>Eligible Applicants</b>                            | Cities, towns, and other local units of government, states, tribes, redevelopment authorities, regional government councils, and any other entity sanctioned by a state to engage in land recycling and development.   | Pilot applicants must be located within or near one of the brownfields assessment pilot communities. Colleges, universities, nonprofit training centers exempt from taxation under 26 USC 501 (c)(3), community job training organizations, states, cities, towns, counties, U.S. Terr. And federally recognized Indian tribes are eligible.                               | Groups must be located near or affected by a site that is either proposed for or on the NPL. All groups must be incorporated as nonprofit organizations.  |
| <b>Award Amount</b>                                   | \$200,000 per site; up to \$1,000,000 per eligible entity.   |  | Normally up to \$50,000 per site  |
| <b>Total Awarded in Fiscal Year</b>                   | \$130 million for National Program in FY03 (the total amount of Brownfield monies in any category of funding will be based on the percentage of applications received in each category. Any one eligible entity's single year award will be capped at \$2.7 million).  |  | FY'03 - \$200,000<br>FY'04 - \$50,000   |
| <b>Matching Share</b>                                 | 20% - all cleanup grant recipients <i>must own</i> the property they have applied for funding against at the time the award is made.   |  | 20% matching share; in-kind contributions may be used to meet this match.   |
| <b>Key Dates:<br/>-Application Due<br/>-Selection</b> | Due: December 16, 2002<br>Selection: May/June 2003   |  | Applications may be submitted after a site is proposed for listing on the NPL.  |
| <b>Priorities</b>                                     | Applicants must be able to demonstrate the ability to manage a site cleanup and demonstrate a need. Funds may be used for environmental cleanups, demolition, and asbestos and lead paint abatement where environmental need is demonstrated. Funds may not be used for site acquisition or other land purchases. Monies may be used for the cleanup and removal of underground storage tanks and related contamination. | The pilots are used to bring together community groups, job training organizations, educators, investors, lenders, developers and other affected parties to address the issue of providing training for residents in communities impacted by brownfields.<br><br>Look at <a href="http://www.epa.gov/R5Brownfields">www.epa.gov/R5Brownfields</a> for further information. | - Because only one grant is available for each NPL site, EPA encourages groups to consolidate in order to provide technical assistance to the most widely representative group of individuals possible.<br><br>- To this end, EPA notifies the community via a public notice in the local newspaper if an application is received from an eligible group. |

# FUNDING SOURCES

| Grant Program   | Clean Air Act (CAA)<br>Section 105 Continuing<br>Environmental Program Grants   | Clean Air Act (CAA)<br>Section 103 Project Grants  | State Indoor Radon Grants (SIRG) Toxic<br>Substances Control Act (TSCA) Section 10<br>and Section 306  |
|---|---|--|--|
| <b>Purpose</b>  | Provides authority to make grants to air pollution control agencies, for developing and implementing programs for the prevention and control of air pollution or implementation of national primary and secondary ambient air standards.  | Provides authority for conducting and promoting research, investigations, experiments, demonstrations, surveys, studies and training related to the extent, prevention and control of air pollution.   | Section 10 and 306 provides authority for supporting research, development and monitoring related to indoor radon, public education, training, demonstrations and studies related to indoor radon.   |
| <b>E l i g i b l e<br/>Applicants</b>                   | State, tribal or local air pollution control agencies.  | State, tribal, local air pollution control, colleges, universities or multi-state jurisdictional air pollution control agencies and or non-profit organizations.   | Section 10: Federally recognized tribes.<br><br>Section 306: State/Local air pollution control agencies.   |
| <b>Award Amount</b>                                     | Varies. Most will be between \$500,000-\$6,000,000 for a period of 1-2 years  | Funding amount varies. Also project and budget periods vary depending on the nature of the project.  | For both Section 10: varies. Generally between \$10,000 to \$50,000<br>Section 306: \$100,000 - \$450,000  |
| <b>Total Awarded<br/>in Fiscal Year</b>                 | \$25 million available in FY04.   | Approximately \$5 million  | Section 10: Approximately \$225 K<br>Section 306: Approximately \$1.75 million   |
| <b>Matching Share</b>                                   | States and Locals must provide at least a 40% match and meet maintenance of effort (MOE) requirements. MOE requires the state or local agency to expend an amount of recurrent non-Federal funds at least equal to such expenditures during the preceding fiscal year.  | Can be up to 100% Federally funded   | Section 10: 0-5% match<br>Section 306: 50% match   |
| <b>Key Dates:<br/>- Application Due<br/>- Selection</b> | Applications Due 8/1 of current year for following Fiscal Year  | Due dates vary according to the nature of the project  | Section 10: Application deadline: June 15 of prior year<br>Section 306; Application deadline: June 15 of prior year  |
| <b>Priorities</b>                                       | <ul style="list-style-type: none"> <li>- Attainment and Maintenance Planning and Implementation for attainment of the National Ambient Air Quality Standards.</li> <li>- Air Toxics</li> <li>- Compliance Program</li> <li>- Air Quality Monitoring</li> <li>- Great Lakes Air Toxics Deposition (Optional)</li> <li>- Reduction of Mercury Emissions</li> <li>- Geographic Initiatives (Optional)</li> <li>- Global Climate change (Optional)</li> </ul> | <ul style="list-style-type: none"> <li>- Particulate Matter 2.5</li> <li>- Tribal Air Quality</li> <li>- Air Toxics Monitoring &amp; Assessment</li> <li>- Regional Haze</li> <li>- Great Lakes Air Deposition</li> <li>- Indoor Air - Tools for Schools, Asthma Education, and Environmental Tobacco Smoke</li> <li>- Voluntary Programs - School Bus, Diesel Retrofit, Anti-idling, and other mobile source programs.</li> <li>- Vary according to the nature of the project.</li> </ul> | <ul style="list-style-type: none"> <li>1) establish effective radon programs among States, Territories, and Federally Recognized Indian Tribes;</li> <li>2) increase the number of homes, schools, and other buildings tested and mitigated for radon;</li> <li>3) encourage radon testing and disclosure in connection with real estate transfers;</li> <li>4) implement radon resistant construction standard in high risk areas; and</li> <li>5) promote environmental justice through programs and outreach efforts directed at low-income and/or culturally-diverse populations.</li> </ul> |

| Grant Program   | Mobile Source Outreach Assistance Competition<br>Office of Transportation and Air Quality   | EPA ORD Program<br>(Science To Achieve Results)   | REMAP (Regional Environmental Monitoring and Assessment Program)   | RARE<br>(Regional Applied Research Effort)  |
|---|---|---|--|---|
| <b>Purpose</b>  | To provide national support for community-based mobile source public education efforts and to encourage responsible choices for organizational and individual actions through public education.   | The STAR Program is the principal scientific extramural funding vehicle for EPA's various research authorities. Further details on the program are found in the homepage for the National Center for Environmental Research and QA - <a href="http://www.epa.gov/ncercqa">www.epa.gov/ncercqa</a> | The program will allow Regions to participate in EMAP (Environmental Monitoring and Assessment Program). The program is designed to use a statistically based sampling design to assess environmental conditions in the U.S.                 | This program provides extramural funding from the internal ORD research budget to support Regional Office scientific needs.   |
| <b>Eligible Applicants</b>                              | Proposals can be accepted only from air pollution control agencies as defined under Section 302(b) of the Clean Air Act as well as multi-state organizations supporting Section 302(b) agencies.  | Broad: Academic and not-for-profit institutions located in the U.S. and state or local governments are eligible under all existing authorizations. Profit making firms and other federal agencies are not eligible to receive assistance from EPA under this program (and not Regions).           | The Regions are eligible for the research funding available. Each Region submits proposals to be assessed by the EMAP Technical Directors and other parties within the Office of Research and Development.                                   | An internal Regional review of projects submitted by programs throughout the Region ranks and selects project(s). Funding is extramural, and ORD acts as Project Officer. Region 5 concurs with selection. The process is managed by the Regional Science Liaison to ORD. External proposals are not accepted. Current funding is \$200,000 per year. |
| <b>Award Amount</b>                                     | Not to exceed \$100,000   | Variable  | \$200,000 per year   | Usually one award per Region per year   |
| <b>Total Awarded in Fiscal Year</b>                     | A minimum of \$550,000  | \$100 million in FY 03  | \$200,000 per year   | For FY01 and FY02, \$100,000 per Region was available. \$200,000 anticipated for FY03.  |
| <b>Matching Share</b>                                   | CAA Section 105 mandates matching funds of at least 40%. This does not apply to multistate organizations. Recommend contacting EPA Regional Grant Coordinator   | Minimum of 5% required  | Not applicable   | Not applicable  |
| <b>Key Dates:<br/>- Application Due<br/>- Selection</b> | Schedule for FY 03-04 not yet determined - Request for Proposals expected to be issued in early spring.   | Solicitation is three times a year.   | Pre-proposals are due Jan. 2005, Proposals are due Feb. 2005   | Nominated project descriptions are due to ORD Dec. 2004. Final funding packages due to OARM June 2004.  |
| <b>Priorities</b>                                       | <u>Program emphasis:</u> voluntary measures, commuter choice initiatives, transportation choices, car care (testing, repair, etc), environmental education for future drivers and consumers, other mobile source issues, (i.e. on-board diagnostics, diesel, heavy duty engines, non-road engines)<br><u>Some Primary Criteria:</u> addresses environmental goals of improved air quality from mobile sources, strong public health message, national or regional applicability, provides at least minimal replication for use by other organizations, potential for sustainability | Refer to <a href="http://www.epa.gov/ncercqa">www.epa.gov/ncercqa</a> for priorities.   | To be established in conjunction with the EMAP Technical Directors and ORD. The previous priorities related to projects having novel research concerns, important environmental implications, and consistency with the EMAP sampling design. | To be established by Regional Office in dialogue with ORD. Work must be accepted by an ORD laboratory as within its objectives.   |
| <b>Contact Person<br/>Office/Division</b>               | Susan Bullard<br>Director of Outreach & Communication<br>Office of Transportation and Air Quality   | <a href="http://www.epa.gov/ncercqa">www.epa.gov/ncercqa</a>  | Arthur Lubin<br>Office of Strategic Environmental Analysis   | David Klauder, ORD or David Macarus - Office of Strategic Environmental Analysis, Regional Scientist Liaison of ORD   |

| Grant Program   | TSCA Section 10 Tribal Lead Grants  | TSCA Section 404(g) Lead Grants  | Regional Geographic Initiative (RGI)   |
|---|---|--|--|
| <b>Purpose</b>  | To support tribal lead awareness outreach (educational) activities and the efforts of Indian tribes to identify children's risks to lead by conducting baseline assessments of existing exposure and/or potential lead exposures.   | To develop and carry out authorized State and Tribal Lead-Based Paint (LBP) programs.  | A unique funding source used for geographically-based projects that fill critical gaps in the Agency's ability to protect human health and the environment.  |
| <b>Eligible Applicants</b>                              | Any Federally recognized Indian Tribe and/or tribal consortia.  | A State or Tribal applicant may receive assistance if it is either implementing an EPA-authorized LBP program, or if it is developing a LBP program that may be authorized in the future.  | State Agencies, Federally Recognized Tribes, Locals, Governments, Colleges, Universities, and Non-profit organizations.<br><br>*As a result of the FY04 Great Cities Regional Initiative, all RGI funds will be awarded to the 6 Great Cities within Region 5 (Chicago, Cleveland, Detroit, Indianapolis, Minneapolis, Milwaukee).   |
| <b>Award Amount</b>                                     | Up to \$75,000 for outreach (education) projects, \$50,000 for baseline assessment activities, or \$125,000 for a combined grant proposal for both outreach and baseline activities.  | \$200,000 - \$400,000/ State<br>\$50,000 - \$70,000 / Tribe  | Awards may vary depending on project need and availability of funding.<br><br>*In FY04, Region 5 has made available \$200,000 to each of the Great Cities.   |
| <b>Total Awarded in Fiscal Year</b>                     | Up to \$1.2 million nationally.   | Up to \$12.5 million nationally or \$1.5 million regionally.   | In FY 2003, Region 5 awarded \$90,018.   |
| <b>Matching Share</b>                                   | NONE  | NONE   |  |
| <b>Key Dates:<br/>- Application Due<br/>- Selection</b> | Pre-Application proposals may be submitted after Notice of Funding Availability is published in Federal Register. For FY04, proposals are due on or after June 28, 2004.  | Due: July 30<br>Selection: August 30<br>Award: September 30  | Due: Call contact below.<br>Selection: Call contact below.   |
| <b>Priorities</b>                                       | Proposals will be evaluated and scored for quality, strength, and completeness against the following criteria:<br>1) General (20 points) - the overall description of the program, which must address the goals of the program as detailed in the notice,<br>2) The actual activities of the proposed project (either education/outreach or environmental assessment). (40 points).<br>3) Project Management (30 points) - The grant proposal should describe the staff positions, qualifications, roles, and responsibilities.<br>4) Budget (10 points) - The evaluation will be based on the extent to which the proposed budget is reasonable, clear, and consistent with the intended use of the funds. | - Funds must be used to develop and implement authorized LBP programs which include:<br><br>1) Ensuring that individuals engaged in LBP activities are properly trained.<br><br>2) That training programs are accredited.<br><br>3) That contractors engaged in such activities are certified.<br><br>4) To develop and/or carry out lead pre-notification education programs. | RGI must be utilized in alignment with the following:<br><br>- Must address problems that are multimedia in nature or fill agency gaps in the protection of human health and the environment.<br><br>- Must address places or sectors that promote sustainability in healthy communities and ecosystems.<br><br>- Must be used in projects that demonstrate state, local, and/or other stakeholder participation, and/or identifies opportunities for leveraging other sources of funding. |
